

### Alanine Amino Tranferase (Log Transform)

Genomic Inflation Factor is 1.05177536762139

# Albumin

Genomic Inflation Factor is 1.05642617632916

## Aspartate Amino Transferase

Genomic Inflation Factor is 1.04834340569528

### Carbon dioxide

Genomic Inflation Factor is 1.03191172663572

# Cholesterol

Genomic Inflation Factor is 1.03861543949955

# Creatinine

Genomic Inflation Factor is 1.02137723914402

### Free T3

Genomic Inflation Factor is 1.01909752408458

### Free T4 (Log Transform)

Genomic Inflation Factor is 0.994634136933098

# Glucose (Log Transform)

Genomic Inflation Factor is 1.04610050813471

# Hemoglobin A1c

Genomic Inflation Factor is 1.04169847694333

# High Density Lipoprotein (Log Transform)

Genomic Inflation Factor is 1.12722693928373

# Insulin-Like Growth Factor-1 (Log Transform)

Genomic Inflation Factor is 1.04924180854575

# Low Density Lipoprotein

Genomic Inflation Factor is 1.02632679841335

## Platelet Count

Genomic Inflation Factor is 1.0900758968758

# Protein Urine (Log Transform)

Genomic Inflation Factor is 1.01001768028042

# Red Blood Cell Count

Genomic Inflation Factor is 1.08384120146952

# Thyroid Globulin Antibody

Genomic Inflation Factor is 1.01748080326271

### Thyroidperoxidase Antibody (Log Transform)

Genomic Inflation Factor is 1.01816685662392

### Thyroid Stimulating Hormone (Log Transform)

Genomic Inflation Factor is 1.06533258684863

## Triglycerides (Log Transform)

Genomic Inflation Factor is 1.11045917460547

# White Blood Cell Count

Genomic Inflation Factor is 1.09920578761999
